SUMMARY

Self-taught full-stack developer and designer with freelance experience building responsive, user-friendly web applications. Skilled in the MERN stack (MongoDB, Express, React, Node.js) and passionate about crafting clean, accessible interfaces. Continuously learning to stay ahead in the fast-paced world of web development.

WORK EXPERIENCE

FREELANCER

2023 - Present

- Built custom personal websites based on client needs
- Worked closely with clients to understand their goals and deliver user-friendly solutions
- Handled the full project process—from planning and design to testing and launch
- Delivered responsive websites that work well on all devices
- Ensured client satisfaction through clear communication and timely delivery

PROJECT EXPERIENCE

PAWRORA

A full-stack social media app to share stray animal issues and support through donations. Users can create posts with images, comment, and connect with others. It has secure login, a responsive design, and online payment support.

Features:

- Login with JWT authentication
- Post creation with image upload (Cloudinary & Multer)
- Donations using Razorpay
- Responsive UI (Tailwind CSS)
- State management (Redux Toolkit)
- API tested with Postman

Tech Used: React, Node.js, Express, MongoDB, Redux Toolkit, Tailwind CSS, Cloudinary, Multer, Razorpay, Postman

FRAGRENZO

An e-commerce web app for browsing and buying perfumes. Users can register, explore products, add them to the cart, and place orders with secure PayPal payments. It also includes an admin panel to manage products and orders.

Features:

- User authentication and profile
- Product search, filters, and details
- Cart and order management
- Payments using PayPal Sandbox
- Admin dashboard for managing products
- Image uploads with Cloudinary
- Fully responsive design

Tech Used: React, Node.js, Express, MongoDB, Redux Toolkit, Tailwind CSS, PayPal Sandbox, Cloudinary, Multer, Postman
