SUMMARY

MERN Stack Developer with hands-on experience building full-stack web applications using React, Node.js, Express, and MongoDB. Strong interest in designing scalable, maintainable systems and solving real-world problems through clean architecture and efficient APIs. Proven ability to take features from idea to production.

TECHNICAL SKILLS

Used (Core): JavaScript (ES6+), HTML5, CSS3, React.js, Redux Toolkit, Node.js, Express.js, MongoDB, REST APIs, JWT Authentication, Tailwind CSS, Git, GitHub, Postman, Cloudinary, Multer, Razorpay, PayPal Sandbox, Vercel, Render, Netlify **Also Used:** C, C++, Java, Python, SQL, Firebase, SCSS

PROJECTS

Pawora –Stray Animal Support Platform

- Built a real-world platform for reporting stray animal issues and supporting causes through online donations.
- Designed complete workflows from frontend UI to backend APIs and MongoDB data models.
- Implemented JWT-based authentication, Razorpay payment processing, and Cloudinary-powered image uploads.

Tech Used:

Frontend: Re act.js, Redux Toolkit, Tailwind CSS
Backend & Services: Node.js, Express.js, MongoDB, JWT Auth, Cloudinary, Multer, Razorpay
Git repo:https://github.com/Aswanth-v/Pawora

Fragrenzo – E-commerce Web Application

- Developed an end-to-end e-commerce system with product discovery, cart, checkout, and order management.
- Implemented admin-level product and inventory management with secure PayPal Sandbox payment integration.

Tech Stack:

Frontend: React.js, Redux Toolkit, Tailwind CSS

Backend & Tools: Node.js, Express.js, MongoDB, PayPal Sandbox, Cloudinary, Multer, Postman

Git repo:https://github.com/Aswanth-v/Fragrenzo

CodeRoads – Developer Learning Path Platform

- Designed and developed a web application to structure and visualize developer learning roadmaps.
- Integrated an AI-powered chatbot using Hugging Face models for real-time, contextual guidance and query resolution.
- Implemented API-based interactions with efficient request handling and responsive UI rendering.
- Enhanced user experience through intelligent, real-time assistance and clear learning path visualization.

EXPERIENCE

FreelanceWebDeveloper | 2023 – Present

- Built responsive, client-focused websites using modern frontend technologies.
- Translated business requirements into reusable, maintainable UI components
- Ensured cross-browser compatibility, performance optimization, and clean code practices.

OPEN SOURCE

Together-100Devs (React Project)

- Contributed UI and UX improvements to a production React codebase.
- Enhanced button interactions by adding consistent cursor and hover effects across navigation components.
- Collaborated with maintainers through GitHub issues, pull requests, and code reviews.
- Incorporated reviewer feedback, ran formatting and linting checks, and squashed commits before merge.
- Successfully merged changes into the main branch following project contribution guidelines.
